

Species at Risk Technician Eligibility Checklist

Section 1 – ECO Canada Criteria

Are you:

- 30 years of age or younger?
- Unemployed, under employed, or a student/recent graduate?
- Already a Canadian citizen, permanent resident or have refugee status?
- A post-secondary graduate?

I [insert applicant's name] am eligible for this position because I checked the box for ALL questions in Section 1 above. I further understand that misrepresenting my eligibility for this position will not only make me ineligible for this position but will negatively affect all future employment opportunities with Blazing Star Environmental.

Section 2 – Employee equity groups

Blazing Star Environmental is committed to being an inclusive, equitable employer. We welcome all humans to our team and make every effort to identify and remove barriers to their success. To this end, Blazing Star Environmental has submitted applications for funding to support hiring employment equity groups. Please check all the following groups with which you identify with:

- Women
- Visible minority youth
- Indigenous youth
- Youth living with disabilities
- Youth from official language minority communities
- Youth residing in a rural or remote location

Section 3 – Past participation in federal youth employment programs

I have participated in the following federal youth employment programs
[select all that apply]:

- Youth Employment in Natural Resources
- Science Horizons Youth Internship Program
- Canada Summer Jobs
- None
- Other (specify)

[If you have participated in one of these internships, please list the details of which funder (e.g. ECO Canada, Career Launcher, etc.) and when you participated.]

Sincerely,

[sign and print name]
